

In the second half of January eight people from Little Alpine club: Ivan, Pop, Ana, Kaleza, Zarija, Bojan, Novica and Vanja climbed in the valley of Malta - Austria on frozen waterfalls. This was our second visit, so we were already familiar with the valley and opportunities for climbing. The weather was great, it was a lot of climbing, a bit of skiing on nearby ski resort and the most - fun. Like last year we climbed and spent a time with our friends from Austria Gregor, Jo and Stefan and a group from Belgrade. We manage somehow to climb following waterfalls:

- Dreifaltigkeitsfall, 70 m, WI 3+ - Superfeucht, 140 m, WI 4-5 - Stranerbach, 400 m, WI 2-3
- Cathedrale, 240 m, WI 5

- Linker dreifaltigkeitsfall, 200 m, WI 3-4

- Vorderer maralfall, 60 m, WI 3

- Aluhohl, 180 m, WI 4+

Report with impression from the trip is available only on Serbian, while photos can be found in the gallery.
