

Unfortunately for many climbers, yesterday is closed one sport climbing site near Podgorica. **The "Small Sector" climbing site is permanently closed on Smokovac (opposite of the gas station) due to works on the**

“**Bar-Boljare“ highway.**

At this climbing site, there were 15 routes of different grades, and it was an ideal place for many of our trainings.

Yesterday, climbers Miloš and Bojan have removed security anchors and there is no more fixed anchors for climbers on this climbing site, so please do not use this sector for any climbing.
