

Near the Ostrog Monastery in the Povija village there are routes of various grades and heights. The equipped section refers to the crag with the height of 15-20 m, characteristic for its shape of a tower, which enables climbing all its faces. It has 4-5 routes with difficulty grades ranging from V to VII. There is a potential for equipping several hundred routes on the surrounding crags. Approach: on the road Podgorica - Nikšić in the Bogetići village, about 40 km from Podgorica one should turn right towards the Ostrog Monastery. After about two kilometres, one should turn left towards the crags.
